

Residential Traffic Safety Unit

A COLLABORATIVE APPROACH TO ENHANCING TRAFFIC SAFETY IN RESIDENTIAL COMMUNITIES

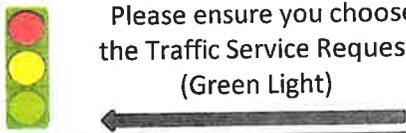

This unit is specifically interested in Residential TRAFFIC issues.

The strategy has been:

- Utilize citizen feedback to inform operational response
- Focus on playground zones, pedestrian rich locations and other high risk locations identified through collision data analysis
- Emphasize public awareness and education, and facilitate citizen engagement through Community Traffic Safety Meetings and to work with City partners to further support traffic calming measures outside enforcement

One of the key tools to help Calgary Police Service monitor and track these issues is the Traffic Service Request (TSR).

IF YOU HAVE A TRAFFIC SAFETY CONCERN:

Go to	www.calgarypolice.ca	
Scroll Down and Click		A TSR form deals with persistent traffic violation(s) that are noted by the public
Then choose (click)	Click here to submit a traffic service request	 <p>Please ensure you choose the Traffic Service Request (Green Light)</p>
Confirm that this isn't Parking or related to one specific vehicle or situation then choose		Complete the entire report

Please complete as detailed and accurately as possible to assist officers in enforcement.

Please. Include directions, times, and any additional information you feel may assist in resolving the issue.

"One Off" complaints where a specific violator or license number can be identified may be referred to 403-266-1234. for appropriate dispatched response.

If this issue is regarding Parking please call Calgary Parking Authority at 403-537-7000 Option 3
